

CREMATED REMAINS PLOT

Cremated Remains Plots are in groups of four with each plot accommodating up to 4 cremated remains caskets.

Each grave measures 2ft by 1ft 6inches and is sealed with an engraved black granite tablet set in a polished granite surround.

The Exclusive Right of Burial to the grave is purchased for 25 years by one person who will become the registered owner.

Only the registered owner can authorise cremated remains to be laid to rest in the grave and apply for the inscription on the tablet.

Each tablet has a choice of 3 inscriptions at the top of the tablet; followed by the name, date of death and age of the person(s) remembered. Further names can be added at a later time and are subject to the fees and charges at that time.

The inscriptions are uniform to ensure there is enough room for 4 people to be remembered.
